

LearningExpress Library Air Traffic Selection and Training (AT-SAT) Practice Tests

Those who have what it takes to become Air Traffic Controllers will discover an important and satisfying career with excellent pay and benefits. And the job outlook is good: the U.S. Department of Labor expects the number of Air Traffic Controller jobs to increase in the coming years.

To become an air traffic controller for the FAA, you must graduate from an approved Air Traffic Collegiate Training Initiative (AT-CTI) program. Prior to graduation, you will be required to take a pre-employment test called the Air Traffic Selection and Training (AT-SAT) exam.

The **LearningExpress AT-SAT Practice Exams** offer Air Traffic Controller candidates the essential, authentic practice they need to perform their best on every section of this most important test.

We offer online practices based on the content of the seven official cognitive AT-SAT tests: Analogies, Angles, Applied Math, Scan, Dial Reading, Letter Factory, and Air Traffic Scenarios.

Each of the tests offer:

- **25-100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official test
- **Instant online scoring** and **detailed answer explanations**

The following AT-SAT Practice Exams are available:

Analogies
Angles
Applied Math
Scan
Dial Reading
Letter Factory
Air Traffic Scenarios

Quick Facts

According to the Bureau of Labor Statistics:

- The average salary for an air traffic controller is around \$122,000 per year.
- Depending on length of service, air traffic controllers receive 13 to 26 days of paid vacation and 13 days of paid sick leave each year, in addition to life insurance and health benefits.
- Air traffic controllers held about 25,000 jobs in 2007.
- The vast majority of air traffic controllers are employed by the FAA.
